

H. C. EDDY ENDORSES
CAR LINE EXTENSIONPlan Would Relieve Congestion
and Advance Traffic
Facilities.

Indorsement of the proposal of the Capital Traction Company to extend its line south on 15th street, from Pennsylvania avenue to C street, is contained in a letter received by The Star from H. C. Eddy, former engineer of the public utilities commission.

Mr. Eddy, who has been engaged for some time in installing a large amount of electrical machinery at Indian Head for the Navy Department, gave practically his entire attention to street railway matters when he was connected with the commission.

Mr. Eddy Reviews Situation.

"When the Capital Traction Company requested permission, a year and a half ago, to build a line on 15th, H and I streets, with a loop around 14th street, New York avenue, 15th and I streets," states Mr. Eddy, "they included also a connection at 15th street and New York avenue, whereby 14th street cars could be operated through on Pennsylvania avenue west of 15th street. As I understand the present request, it also includes such a connection, and this, to my mind, is a most important feature.

"At the time of the original request I made an exhaustive study of the entire situation, including the matter of westbound traffic on Pennsylvania avenue west of 15th street and vice versa. My report to the commission contains some interesting data and certain recommendations. It would doubtless be a surprise to most people to learn the volume of traffic in this direction.

"This has no doubt increased since my investigation and also will doubtless increase further, especially with the opening of the new Interior Department building.

"If this connection at 15th street and New York avenue is installed it will be decidedly in the interest of improved service and will also tend to relieve the present congestion south and east of 15th street and New York avenue without increasing it at that point.

Access to Potomac Park.

"The proposed extension on 15th street to C street, with a loop at 15th street, Virginia avenue and C street, would provide for a much-needed and steadily increasing demand for a thorough service to that locality from various sections of the city. This would also provide the general public with a direct means of access to Potomac Park, via street cars, something which I have long advocated for all parks in the District of Columbia.

"While I have not seen the detailed plan of the proposed scheme, I believe the general plan is good, and a long step in the improvement of street car service and facilities.

"The loop recently completed at 15th street and Pennsylvania avenue north-west, also was included in the Capital Traction company's first request, and should have been constructed long ago. This not only provides means for eliminating waste mileage, which in turn means greater facilities for the company to improve its service, but it also provides better means for handling traffic, not only during rush hours, but in cases of blockades, etc."

1,600 TO PARTICIPATE IN
ANNUAL RIFLE MATCHES

Officials Complete Plans for National
Tourney to Begin in Florida
October 11.

Final arrangements for the annual national rifle matches which will begin at the state camp range near Jacksonville, Fla., with the Southern Rifle Association competitions October 11, have been completed by Col. Samuel W. Miller, executive officer of the matches, his aids, Maj. William C. Harless, assistant executive officer, and Brig. Gen. Fred H. Phillips, secretary of the National Rifle Association.

Forty-two teams from National Guard organizations, the Marine Corps and civilian rifle clubs throughout the country have entered for the matches and many others have announced their intention to do so. Because of the situation on the Mexican border and the pressure of work outlined for the Atlantic fleet this fall, the army and navy are not expected to have their teams participate this year.

Detail for Range Duty.

The War Department has authorized Maj. Gen. Wood, commanding the Department of the East, to select 300 men from the coast artillery service for range duty in connection with the meet.

A similar number of marines already has been designated by Secretary Daniels.

Gen. Phillips said a total of 1,600 would participate in the meet.

The number of entrants from civilian clubs, he said, had been surprisingly large and would comprise about one-half of the teams competing.

Shipment of Supplies on Way.

Eight hundred thousand rounds of ammunition, 400 canteens, a large quantity of quartermaster supplies and other equipment have been issued by the War Department and are now on the way to Jacksonville.

Gen. Funston, in command of the troops on the border, has received word from the governors of six states to select teams from among their respective National Guard units by competition for the national matches.

Try-outs for the local civilian teams will be held at Winthrop at 9 o'clock tomorrow morning.

Fugitt's Pigeon Is Winner.

The most interesting event of all club races, the Washington Race Pigeon Club's futurity race, was flown Wednesday. Special rings, four in number, were issued to each member last January, and only pigeons with these rings were eligible for the race. Of the original 116 pigeons started, 37 were in the race, and every one of them made better time than any young bird so far this year. The liberation was at 7 a.m. at Danville, Va., 210 miles from Washington. The first arrival was to the loft of W. H. Fugitt, 1:52.40, a 1:17 (two birds); E. D. Krouss, 1:55.9; William Cross, 1:55.5; Phil Krouss, 1:55.9; J. F. Becker, 1:55.4; C. A. Dauterhoff, 1:55.1; J. L. Lile, 1:55.1; W. O. Norwood, 1:54.2; B. T. Miller, 1:54.2; W. F. Dismar, 1:54.2; E. D. Dismar, 1:54.2; B. R. Lloyd, 1:54.2; W. Koch, 1:52.2; C. A. Pennington, 1:52.2; E. C. Koch, 1:52.2. One left no return. Single nomination, R. B. Lloyd.

Eugene Dobson, colored, shot and killed his employer, Jacob R. Birkle, and turned the gun on himself, blowing off the top of his head. The shooting occurred near Nokesville, Prince William county, Va.
